

ZUHAIR S A SAFI

Gaza, Palestine • zuhair@z91s3.com • z91s3.com

PROFESSIONAL SUMMARY

Analytical, highly disciplined Electrical Engineering undergraduate combining technical technical acumen with formal backgrounds in Entrepreneurship and Public Diplomacy. Demonstrated success in managing agile web deployments, network infrastructure security, and high-tier multimedia operations under intense environmental constraints. Strong capabilities in emergency first aid protocols and high-intensity structural teamwork. Equipped with an advanced English diploma (B2/C1 level) and verified digital platform growth execution, seeking immediate academic or professional integration.

EDUCATION & TECHNICAL CREDENTIALS

Bachelor of Science in Electrical Engineering (Undergraduate) **2023 – Present**

An-Najah National University

- **Core Competencies:** Electric Circuit Analysis, Microcontrollers, Digital Systems, Network Architecture Routing, Power Distribution.
- **Technical Research:** Designed and presented a detailed academic study on internal voltage-amperage properties and storage metrics of secondary battery cells.

Advanced Professional English Diploma (Level B2/C1) **Concluded 2026**

Al-Salam Training Group

- Focused on high-tier industry and engineering terminology, active professional presentation methods, and academic research writing structures.

High School Diploma – Entrepreneurship & Business Branch **Graduated 2023**

- Acquired technical academic benchmarks in corporate management, financial economics, small business development, and accounting procedures.

TECHNICAL ENGINEERING PROJECTS

Lead Systems Architect & UI Developer | "The Splitfather" Web App **April 2026 – June 2026**

- Engineered, coded, and deployed a live interactive web software intended to algorithmically balance multi-tier teams and sort operational groupings.
- Maintained iterative agile deployment over 17 engineering cycles to release Version 17.1, optimizing system load efficiency and UI scalability.

PROFESSIONAL EMPLOYMENT & MEDIA PRODUCTION

Lead Media Producer & Digital Content Creator **2024 – Present**

Educational Entities & Visual Production Networks

- Supervise and deliver comprehensive digital media production, specializing in institutional branding and educational asset production for early childhood institutions.
- Deploy precise cross-platform organic growth strategies under a unified digital handle, achieving 4,000 active followers on Facebook and securing a pre-launch audience of 58,000 followers on Instagram.
- Designed and executed off-grid technical hardware setups to guarantee uninterrupted processing pipelines and heavy video rendering workflows.

CERTIFICATES & APPLIED SKILLS

Professional Certificate in Public Diplomacy

Concluded 2025

- Trained in strategic international relations, public administration, national constitutional law, and cross-cultural communication.

Core Skills & Competencies:

- **Technical Engineering & Networks:** Circuit Design, Advanced Router Configurations, Access Point Setup, MAC Address Filtering, System Security.
- **Emergency & Tactical Skills:** Practical First Aid & Emergency Response, Basic Principles of Forensic Science, Advanced High-Intensity Physical Conditioning, Strict Operational Discipline.
- **Tools & Technology:** Advanced Post-Production Visual Suites, Frontend Coding, Git Control, Bilingual (Native Arabic, Certified Advanced English B2/C1).
